PREFACE

It really gives me immense pleasure to present the handbook of Class-II EVS which will not only cater to the needs of Primary Teachers & students but also abnegate them from rote learning.

I feel honoured for the trust shown by Hon’ble Smt. Sandhya Rastogi, Assistant Commissioner, KVS, RO, Jaipur, in me for preparing this hand Book of EVS subject of Class-I during in-service course of PRT's (May, 2011).

I feel that environmental science integrates many concepts from surroundings for a child and explores the possibilities of utilizing this knowledge.

This rich and comprehensive handbook is the result of tireless efforts of Mrs. S. Sangatani, PRT, K.V. No. 2 Ajmer and Mr. O.S. Bhati, PRT, K.V. No. 2 Bikaner, meticulous planning of Mrs. Suman Soral, Resource Person, K.V. No. 1 AFS, Jodhpur.

I am thankful to Mrs. Rashmi Saxena, Mrs. Renu Gopalia & Mrs. Suman Soral for their sincere endeavours towards the development of this handbook for the Primary Teachers.

I express my gratitude to our worthy Assistant Commissioner Smt. Sandhya Rastogi and the Education Officers of Jaipur Region for motivating me & my team, and providing valuable guidance time to time.

Also, I would like to place on record my appreciation & thanks to all the members of the team and the teachers who have been associated with this noble cause in one or the other form.

Creative suggestions and comments for further improvement and enrichment of this handbook will be gratefully acknowledged.

Dated: 20th May, 2011

House which are made up of ice are called Igloos. These houses are found in very cold regions.

Tent

Some people like scouts and soldiers move from one place to another. They do not build a permanent house. They live in tents.

Q.1 Fill in the blank with missing petter

1. I ........ lioo
2. Ho ........se Bo........t
3. C........rava........
4. T .......... nt.
Q.2 Tick (√) the correct.

1. Kaccha house is made of
   - mud, cement, straw, brick,
     wood, bamboo.

2. Pucca house is made of
   - cement, mud, cloth, bricks,
     iron, straw

3. Igloo is made of
   - ice, bricks, mud

Q.3 Match Picture with name

Kaccha House

Tent

House boat
Q.4 Draw and colour the house you want to live in
BASIC NEEDS

Food

Food is our basic need. We cannot live without food. Food gives us energy to work and play. Food makes us strong and healthy. Food helps us to grow it protects us from diseases.

Food from Plants

We get most of our food from plants. The food which we get from plants is called Vegetarian food.

- Cereals
- Pulses
- Fruits
- Vegetables
Food from Animals

We also get many food items from animals. The food we get from animals is called non Vegetarian food.

Q.1 Write following food items in given columns.

Wheat, green bean, milk, apple, meat, carrot,
Radish, Millet, Black gram, egg, fish, honey

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
Q.2 Tick (✓) the correct words given in the brackets.

1. Food makes us. (strong / weak)
2. Wheat and rice are (Cerals/ Pulses)
3. We get milk from (Cow/ lion)
4. Chick pea and green bean are (Cerals / pulses)
5. We get wheat from (animals / plants)
6. Honey bee gives us (honey/ meat)

Q.3 Colour the slogan

AN APPLE A DAY
KEEPS DOCTOR AWAY
WATER

We need water to live. All plants, Animals and living beings need water to live.

We get water from

Safe water

Clean water is fit for drinking. We say it safe water.

Unsafe water

Some water is not fit for drinking. We say it unsafe water. It is also called polluted water.

Who makes water dirty?

AIR
Air is all around us. We need air to live. We cannot live without air. All human being animals and even plants need air to live.

Properties of Air

1. We cannot see air.
2. We cannot smell air.
3. We cannot taste air.
4. We can just feel air.

**Fresh Air**

We must breathe in fresh air. We must plant more trees around our house. Tree make the air fresh and clean.

**Used of air**

1. Air is used in balloons.
2. Air is used in Tyers.
3. Air is used in flying kites.

Name the following

(a) Name two activities for which you need water.
   1. ..........................  2. ..........................

(b) Name any two fruits which have a lot of water in them.
   1. ..........................  2. ..........................
(c) Name any two containers in which you store water at home
1. .......................... 2. ..........................

(d) Name any two sources of water.
1. .......................... 2. ..........................

Q. Un jumble the names of the sources of water on there water drops.
Match with the correct pictures.
1. APT .......................... 
2. AIRN ..........................
3. LLWE ..........................
4. IVERR ..........................

Q. Tick (✓) the correct word.
1. Plants make the air Pure/ impure.
2. We should always drink (safe / unsafe) water.
3. Air has a taste/ is tasteless.
4. 

Q. Put ✓ or (X) against the given statement.
1. Trees make the air fresh.
2. Air is used in balloons.
3. Plants do not need air.
4. We can see air.

1. Draw pictures

Q. Name 4 liquids that you drink other than water.
   1. ............................ 2. ............................
   3. ............................ 4. ............................

**ANIMALS**

Animals which people keep at home are called pet animals. Animals that live in the jungles and forests are called Wild animals. We cannot keep them at home. We can visit a Zoo to see wild animals like lion, tiger, deer, bear etc.
Some animals like cow, buffaloes, hens etc, are kept in farms. They are known as domestic animals. They provide milk, eggs, meat, carry load and plough fields.

- We keep cows is shed.
- Birds lives in nest.
- Dogs lives in kennel.
- Horses live in stable.
- Lions live in Den.

Q.1 Name animals which

Give milk ..................................... ..................................
Give eggs ..................................... ..................................
Carry load ..................................... ..................................
Are used to pull cart .......................... ..........................
Give wool ..................................... ..................................
Q.2 Match the animal to its home

Pictures Paste Pictures

1. Dog

2. Cow

3. Snake

4. Horse

5. Lion

Plants -

Plants are different in size and shapes. They make this world a beautiful and healthy place to live in.
**SHRUBS-**  A Shrub is a small and bushy plant. Shrubs are short. They have hard woody stem. eg. Rose or Cotton  

**HERBS -** These are very small and thin plant. They have weak stem. They live for a few months. eg grass, Tulsi, Spinch  

**CLIMBERS-** These are weak plants. They cannot stand straight and need some support to grow upwards. eg Money Plant.  

**CREEPERS-** They too have thin and weak stem. They grow along the ground. eg watermelon and pumpkin plants.  

Q.1 Match the following column -  

1. Herbs  (a) Rose  
2. Shrubs  (b) Water melon  
3. Trees  (c) Grass  
4. Climbers  (d) Neem  
5. Creepers  (e) Money plant  

Q.2 Activity  

Find the names of six food items we get from plants.
GAMES

Indoor games- Players, OUt door games players games are very important in our life, we play sports man spirit. We play different kinds of games.

- Indoor games - These games are played inside the room eg Carrom, Chess, Ludo etc.

- Outdoor game - There games are played out in the field eg Cricket, Hockey, Football etc.

Q.1 Make Important of indoor games and A tree infront of out door game, also the numbers needed from the game.

Name of the game | Number of Players
--- | ---
(a) Cricket | 
(b) Chess | 
(c) Football | 
(d) Kabaddi | 
(e) Carrom | 

Health and exercise

Good health can be maintained by

- Playing a game
- keeping body clean
- Exercising regularly
- Eating a balanced diet.
- Taking enough rest.

Q.1 Pick out 5 things which help you to keep your body clean.

Q. Colour the following pictures.
THE EARTH AND THE SKY
Our earth is covered with land and water. The land is not the same everywhere where it has different features and different water bodies.

Type of Land masses

A flat low lying area is called plain.
It is good for growing crops.

Some area are high and have a pointed Top. They are called hills

A very high hill with a pointed peak is called a Mountain.

A vast area of land covered with sand and dust is called desert.
A forest is a big area covered with trees and plants.

A piece of land surrounded by water on all sides is called an island.

Q. Tick (✓) the right answers.
   1. A plain/desert is good for growing crops. (    )
   2. A forest/plain is a home for many animals. (    )
   3. A piece of land surrounded by water from all sides is known as lake/island. (    )
   4. Hill/plain have a rocky surface. (    )
   5. Mountain/Desert is a high hill. (    )

Name the following
1. A piece of land covered with trees
   ..............................................
2. A piece of land surrounded by water

Draw and Colour.

Mountain  Tree
The Sky
We live on the earth. When you look up you see the sky.
We see different heavenly bodies in the sky during day and night. The sun the moon and the stars are known a heavenly bodies.

Day Sky  Night Sky

The Sun
During the day, we see the sun in the sky. The sun is a big ball of fire. It is round in shape. The sun is much bigger than the earth. It is very far from us. Therefore it looks small from earth.

Sun rise  Sun Set
The Moon

What do you see in the sky at night? The sun sets and it is dark. This is the night sky. You see a white body. Which changes its shape through time period. It is the moon. The moon is smaller than the earth. The moon gets its light from the sun.

Phases of moon

The moon keeps changing its shape during the month when the moon is full and round is shape, it is called a full moon. Some time we can only see half of the moon. It is then called half moon. When the moon is sick shaped it is called a crescent moon.
Q. Read the statements and guess the name.

(a) I am round and white
    I change my shape every night.
    Who am I ........................

(b) I am big round and hot.
    You see me during the day.
    Who am I ............P

Tick (✓) the right one.
1. The sun/ moon changes it shape. (    )
2. The sun/moon/ star is a big ball of fire. (    )
3. The sun / moon is bigger than our earth. (    )

Draw

Day       Night
Some time, after heavy rains, we see a rainbow in the sky. The rainbow has seven colours.

Violet, indigo, blue, green, yellow, orange and red

Name the colour of the Rainbow.
1 .......................... 2. .......................  
3 .......................... 4. .......................

Means of Communication

1. When we exchange our idea and thought with other it is called communication. The simplest way to communicate is to talk face to face. However this is not possible all the time if we stay far away from the person with whom we wish to communicate. Written messages there are the answer.

Means of Communication
Means of Transport

Walking is the earliest way of travelling. Though walking is easy and healthy when distance are large, we need to use some means of transport.

1. Land Road Transport - is the transport which runs on the land. They all run on wheels.

2. Air Transport - is the transport which runs in the sky. Travel by air helps us to travel across countries and continents in a short span of time.
Rerrange the jumble words and make Transport

1. USB ........................................
2. aotB ........................................
3. hship ........................................
4. earolpane ...................................

Paste pictures of some means of communication.

3. Water Transport - Boats and ships run on the water. These are known as water Transport. There are fast and cheaper mode of Transport.
Q. Name the following pictures.

Q. Fill in the blanks.

<table>
